Wellness Light

Natural stones for your home

Our natural crystal lamps create with their 16 pastel colour (flowing or pulsed colour changes) harmony and peace for your body and soul.

Use the positive influence of our Wellness Lamps or just enjoy the extraordinary decoration. With their harmonised variety of colours they are relaxing and have an antihypertensive effect. Therefore Wellness Lamps are already used in waiting rooms of medical and alternative practitioners.

It is of great importance to us to provide quality - every product is different and produced in German handmade quality. In doing so the use of valuable natural stones and crystal is essential. Thus we ensure that every single Wellness Lamp is unique. This we like to document and to each lamp the written confirmation of uniqueness has to be enclosed.

Our Wellness Light product overview

Aglow

Description
